## Fast Wireless Charging Desktop Organizer

15-Watt Fast Charger

### USER MANUAL

Thank you for purchasing the CJ Tech Fast Wireless Charging Desktop Organizer. This device combines the technology of a 15 Watt FAST wireless charger along with a place to keep you stationary neat and tidy. Charge you Qi enabled device at fast 15 Watt wireless charging speed. This unit can also be used as a stand for your smartphone providing the perfect viewing angle when on video calls, watching videos or surfing the web.

### POWER & CHARGING

#### 1) Smartphone 5-Watt Wireless Charging:

Using the included charging cable, connect the end with the Type-C connection into the Fast Wireless Charging Desktop Organizer and the other end to a USB Power Source 5V and up to 2.4 Amps (not included). Place your Qi enabled device in the center of the charging stand, when placed correctly the LED light will change from red to blue indicating the Qi enabled device is charging. You will also see the charging icon on your phone appear.

#### 2) Smartphone 10-Watt and 15-Watt FAST Wireless Charging:

Using the included charging cable, connect the end with Type-C connection into the Fast Wireless Charging Desktop Organizer and the other end into a QC 3.0 wall charger (not included). QC 3.0 is a rapid wall charger that will enable the fast-charging features on this unit of 10 Watt or 15-Watt. Place your Qi-enabled devices in the center of the charging stand, when correctly placed the LED light on the charger will change from red to blue indicating the Qi enabled device is charging. You will also see the charging icon on your phone appear.

### PACKAGE CONTENTS

- 1\* Wireless Charging Desktop Organizer
- 1\* Type-C Charging Cable

### NOTE:

- Some phone cases may be too thick to allow for wireless charging. Also if there magnet built in to the case this will prevent the wireless charging function from working.
- Do not place other materials like metal objects, magnets, magnetic stripe cards between the mobile device and the wireless charger pad.
- Check your mobile device's battery percentage by referring to the charging icon on your phone.
- When the mobile device is not placed on the charging surface accurately, your mobile device may not charge properly.
- Please do not expose this device to moisture or heat sources.
- This is not a toy and therefor keep away from children.

### PRODUCT SPECIFICATIONS

- Input: DC 9V/2A
- Wireless Output: 5 Watt, 10 Watt and 15 Watt
- Working Distance: ≤8mm
- Charging Efficiency: 70%-80%

### FCC STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
